# TRANSPLANT REUNION FOR CHILDREN

CELEBRATING

**200**

PAEDIATRIC LIVER TRANSPLANTS

A conclave for high-spirited kids  
enjoying a happy post organ-transplant life

If organ donation is a **gift of life**, then organ transplant is a **promise for life**; and the Global Hospitals Group is committed to upkeep the promise. To express this commitment and to mark the **completion of 200 successful Paediatric Liver Transplants**, Global Health City, Chennai is organizing an exclusive event for children, who have undergone organ transplant procedures.

The event will be filled with **fun filled games, sports activities, on-stage performances and educational activities for families and care givers**. This will also be a great occasion to honour the generosity of the organ donors. Friends from media will also be invited to have a glimpse through the post-transplant quality of life of children and will help in spreading the message debunking the apprehensions surrounding organ transplant in Paediatric age group.

**Paediatric Liver Transplant Unit**, Global Health City invites the families of the children, who have received an organ transplant, to join the event, share their life experiences and get better socio-emotional connect.

Looking forward to seeing you at the event.
